Latest NEWS and INFO for the NEWSLETTER
MMMonVHF The VHF-DX-Portal
****

** MS Prediction from MMMonVHF - October 2010 **

Major shower this month is Orionids, peaking October 21st.
This shower has produced strong rates in 2006, 2007 and 2008,
with lot of bright meteors. A 12-years periodicity in Orionids
stronger returns, extrapolated from old observations, suggests
that relatively good Orionids rates are expected even in 2010.
Some other minor showers, combined with good sporadic meteor
rates, will provide favorable conditions for MS DX-ing. Have a
look to shower predictions for October 2010 at our MMMonVHF
MS-Propagationpage: http://www.mmmonvhf.de/ms.php

Dear EME friends... During upcomming JOTA (Jamboree on the air)
we are planning to be active with a small EME station. Last week I
gave a short Ham radio presentation to a group of scouts and I
also mentioned EME . That got a large group of scouts interested
yes ideed something different than your average MSN / youtube /
facebook kind of communication.. We plan to be active on saterday
16 october from 16:00 UTC till 20:00 UTC Station set up 17 ele
(old cushcraft 17B2) with elevation , LNA , and about 300 watt
on 144 Mc using JT65. I would like to set up some skeds with QRO
stations to make a few EME contacts during the JOTA. We do have
internet available so I will be doing some " self-spotting "
on the EME -reflctors , but I would like to have some pre-
arranged skeds Anybody with a good amout of QRO and good ears on
144 mc interested ?? Please let me know 73's Rick , PA1BVM
(during Jamboree we will use PA1BVM/J)

Norfolk Island (RG30XX) DX Expedition, 2011
The same 2010 Team of Michael - VK3KH, Kevin - VK4UH & myself Alan VK3XPD will be back on the Island from January 7-21, 2011. Accomodation and Flights have already been Booked ! As an added bonus, our 2011 DX Expedition will be running MORE POWER on several Bands and it also encompasses the VK VHF-UHF Summer Field Contest weekend of January 15th and 16th, 2011. Our prime focus this time around are the elusive Microwave QSO's on 2.4 Ghz thru 10 Ghz back to VK and across the "pond" to ZL however, we will again have 6 Metres, 2 Metres, 70 cm & that magic Band of 1296 Mhz.. We will have a Team of serious Microwavers from VK5 who will be place at TBA on the VK2 Coastline. There's Colin - VK5DK, Trevor - VK5NC & Les Janes - VK5??. In ZL, Steve - ZL1TPH will again be operating Portable with his Microwave gear from Cape Reinga on the northern tip of ZL. Because of the sizeable Distances involved and the finicky nature of the Propagation, the WSJT Digital Modes will more than likely offer us the best piossible chace of success. However, 2, 70 & 23cm via Tropo will be used as Indicators of the possibilities for the Microwaves. So.. get your DIGI skill's up, smarten up your Terrestrial statis and we will look forward to working as many of you as possible over this 2 week period. Cheers from the VK9NA Team. ** GB50RN will be on the air for the 50th Anniversary **

The Royal Naval Amateur Radio Society is celebrating its 50th Anniversary this year. A special event callsign GB50RN will be on the air from 2 to 9 October 2010. The station will operate on CW and SSB on the HF and WARC bands from 80m to 10m, and on FM on the 2m and 70cm bands. A special Anniversary Award is available to listeners and licensed amateurs who hear or contact RNARS members and the special event stations during 2010.
QSL via RNARS QSL bureau/G0TOC. Full details can be found on the society website at: http://www.rnars.org.uk/
